

## Practice Nurse – Evergreen Oak Surgery

### Part Time – 24 hours

A fantastic opportunity to join our highly efficient, friendly, dynamic, and forward-thinking team has arisen. We are a popular training practice with 7,000 patients situated in Poole, on the edge of Poole Park and near the Sandbanks Peninsula with a branch surgery a couple of miles away. We have a team-based, collaborative approach to patient care with the emphasis on delivering high quality patient care whilst maintaining good work-life balance and encouraging professional development.

We are looking for a motivated and committed Practice Nurse to join our team. You will demonstrate safe, competent clinical decision-making and expert care, including assessment and treatment skills, for patients within general practice. You will commit to demonstrating critical thinking in the safe clinical decision-making process. You will communicate and work collaboratively with the general practice team to meet the needs of patients, supporting the delivery of policy and procedures, and providing nurse leadership as required.

Together with our GPs and Nursing team you will help shape and develop our Nursing service provision. Additional clinical competencies which are essential include respiratory care, as well as an interest in innovation and re-design of clinical services and delivery.

You will apply yourself in a practical way and have an excellent team-working ethos. You will need to have a caring, friendly and adaptable nature, be able to work autonomously and perform confidently on your own but also work in collaboration with other members of the team effectively and safely.

We are a training practice supporting both FY2 and ST1-3. As such continuing professional development is very important to us for all staff and something we strongly support in the practice, with regular educational and clinical meetings for the whole clinical team. We attain a high level of achievement in QOF, Enhanced services and local schemes. We utilise TPP SystemOne clinical system supported with Ardens.

As an active member of Poole Central Primary Care Network, we are fortunate to have access to a highly skilled Enhanced Care Team coordinating care for our frail and housebound population, First Contact MSK Physio, Social Prescriber, Health Coach and Pharmacists.

Applications with CV and covering letter to:

Caroline Baggott, Practice Manager,  
Evergreen Oak Surgery  
43 Commercial Road  
Parkstone
